

Join the FabLab Science and Innovation Awards Show and Fair

Be a part of the FIRST EVER nation-wide innovation awards show and science fair!

The **FabLab Science and Innovation Awards Show** is a totally new take on awards shows. This 2-hour livestream and network television show airing on **Saturday, November 18, 2017** will celebrate science, technology, engineering, art, mathematics (STEAM) and manufacturing that solves problems and makes modern life livable. The awards will highlight the projects of students, from middle school through young professionals, whose work has impacted the world in a positive way.

Along with engaging in the awards show, you have the chance to showcase your organization at the **FabLab Science Fair** throughout that weekend. The carnival will fuse industry, academia, and student projects in STEAM and manufacturing to animate the next generation of innovators through hands on activities.

The FabLab Science and Innovation Awards Show and Fair provides a unique opportunity for your organization to:

- 1) Inspire kids to explore careers in STEAM and manufacturing through interactive experiences
- 2) Encourage parents and educators to promote STEAM and manufacturing-related education and workforce development
- 3) Showcase your organization's technologies and career opportunities

Opportunities for participation may include:

- 1) Reserve a FREE booth space for your organization to exhibit at the science fair
- 2) Sponsor the awards show and/or fair
- 3) Demonstrate an awesome new technology during the science fair or awards show

If you are interested in participating in this revolutionary event to encourage the nation's youth, please contact Raquel Arce-Benitez (rockelrc@gmail.com) or Bree Falato (breefalato@gmail.com) at the Good Entertainment Foundation production company. The production company will work with you to identify your organization's suitable level of involvement in the FabLab Science and Innovation Awards Show and Fair.
